Get qualified with the South West's free online workforce and individual training offer

Since the beginning of the pandemic, we have responded by making many of our learning courses free to support businesses and communities. This has proved to be a much needed response to upskill local people. Therefore, Plymouth City Council continue to commit to lifelong learning and we are delighted to confirm that we will continue delivering our Level 2 online qualifications **free** until further notice in Devon and Cornwall.

We are offering over 40 professionally accredited, nationally recognised online qualifications for adults.

Our aim is that this will;

- help you solve your professional development and training challenges
- help individuals feel invested in and supported
- give adults the opportunity to upskill at home or at work
- develop professional skills and interests to prepare for the future
- give individuals the autonomy choosing from a wide menu that plays to individual strengths
- support wellbeing
- maintain positive organisational culture

Individuals can learn at their own pace, building skills and gaining qualifications that can open up a range of skills and opportunities.

The offer

We are very proud of this professional offer for the local area, which we have been delivering successfully now for 3 years. These online courses support continuous professional development and are nationally recognised by employers. They are exclusively designed for online study and assessed by a fully qualified assessor.

Entry criteria are very simple and are:

- the applicant must be 19 or over
- be eligible for government funding and be able to work at Level 2 online
- have access to the internet via a desktop or laptop*
- be able to complete the qualification within 20 weeks

We are experiencing high demand right now and expect that some may finish them in a lot less time.

Our full range is on our website but below we have split them into 3 groups for you;

- **Health and Social Care Online**
Qualifications designed to equip teams with the knowledge needed to care for, work with and support others. Popular courses include Mental Health Awareness, Customer Service for Health & Social Care and Understanding Autism
- **Business and Industry Online**
Qualifications designed to equip teams with the knowledge needed to better understand the requirements of various roles within different Business and Industry sectors. Popular courses include Principles of Team Leading and Lean Organisation Techniques, as well as sector specific courses.
- **Essentials Online**
Broadening team understanding of essential subjects for all modern-day workplaces, including Data Protection, Equality and Diversity and Safeguarding.

To view the range of online qualifications and for all enrolment details, please visit

www.onsourcesouthwest.co.uk/e-learning

or phone our friendly, professional team on **01752 660713**

We also hold national funding for bespoke training solutions and would be very happy to advise and co-design with you for a specific training purpose. Get in touch.
